

Pesticide Registration Specialist

SciReg, Inc., a leading scientific, regulatory, and quality assurance consulting firm serving the pesticide, plant protection, pharmaceutical, animal health, and chemical industries, is seeking a pesticide registration specialist to join our growing team. This position will be based in our Washington, DC area (Northern Virginia) office.

Applicants should possess experience in registering pesticide products under U.S. pesticide laws and regulations, including preparing, submitting, and/or managing product applications.

Preferred qualifications:

- Bachelor's degree or higher in animal science, biology, chemistry, toxicology, or related discipline.
- At least three years of experience in the registration of pesticide products under FIFRA, including preparation and submission of registration applications, tolerance/exemption petitions, Notices of Filing, product labels, offers-to-pay, data matrices, etc., or related experience.
- Experience with regulatory agency communications.
- Ability to prepare clear, concise, well-organized regulatory submittals.
- Excellent writing skills, verbal communication skills, interpersonal skills, and attention to detail.
- Experience in laboratory/field testing areas helpful; ability to place and monitor studies that are required to support pesticide registrations.

SciReg, Inc. offers competitive salaries, generous annual leave, a pension plan, and many opportunities for employee development and growth. For consideration, please send your cover letter and resume to jdamico@SciReg.com or submit via our website, <https://scireg.com/careers/>.
