

Do you love playing an integral role in driving innovation in a new and transformational industry?

Suterra is seeking a **Regulatory Affairs Project Manager** who will drive rapid advancement of the product pipeline and maintain current product registrations in the United States. This position is based at Suterra's Bend, Oregon headquarters and will require travel to our Valencia, Spain office at least once per year.

**Suterra** is the world's leader in the rapidly growing industry of biopesticides that use pheromones. We are grower-owned and part of The Wonderful Company®, one of the world's largest private agribusiness and consumer food product companies.
