

DRIVING THE
REVOLUTION
IN BIOLOGICALS

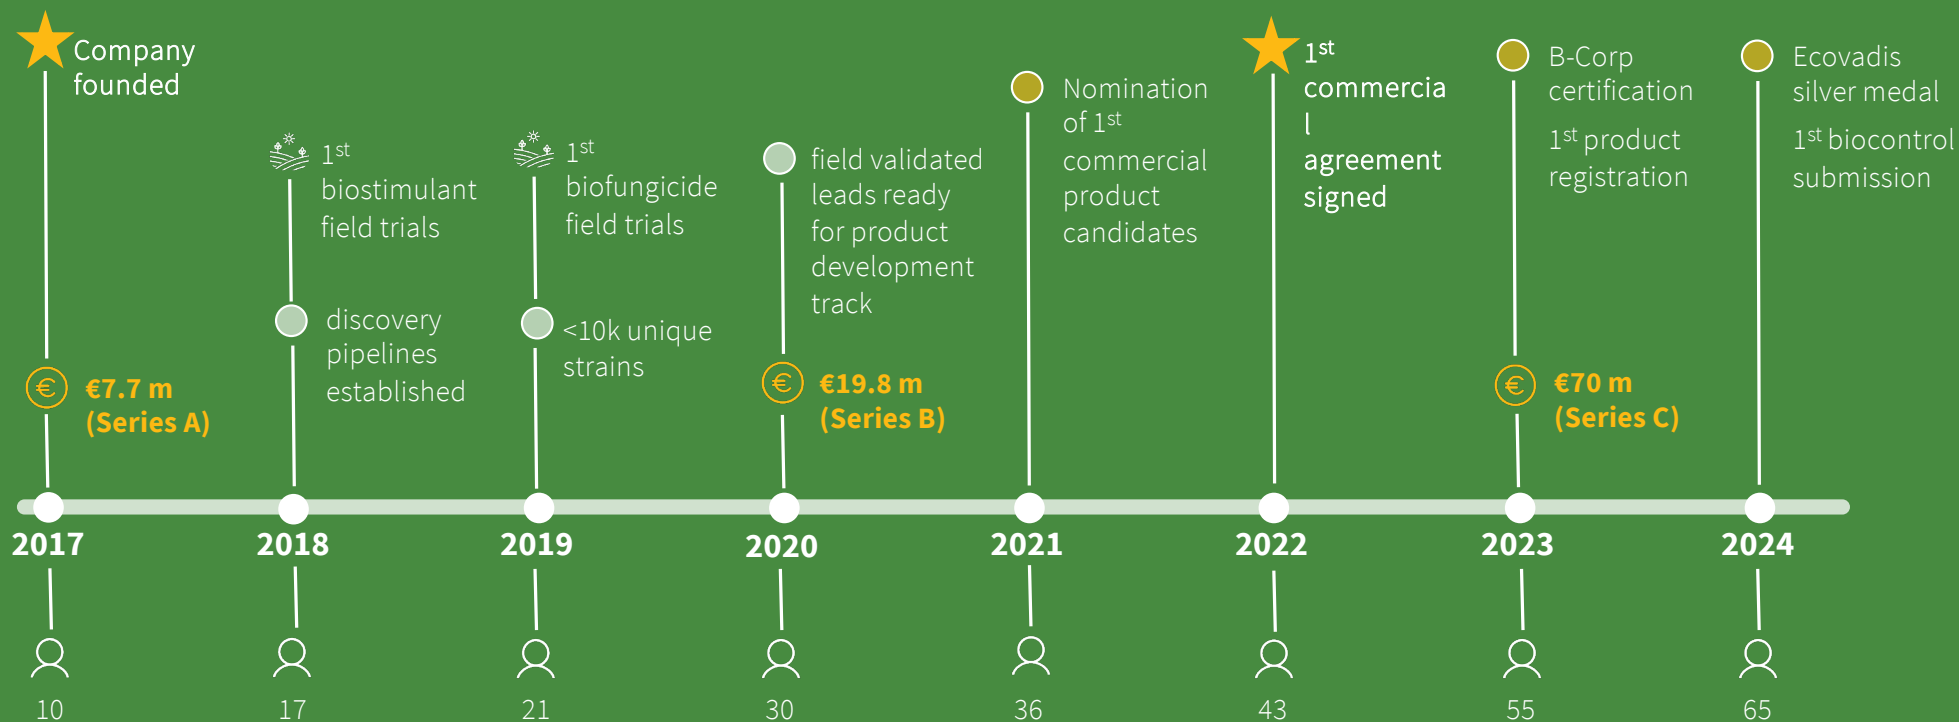

Challenge the
conventional.
Change the norm.

Aphea.Bio is dedicated to food security and ensuring a safe and healthy food chain. We aim to provide **novel, science-based solutions** to build the agriculture of the future: **sustainable, reliable and profitable.**

Aphea.Bio is a **fully integrated product development company** with an established, groundbreaking cost- efficient path from biological discovery to market entry.

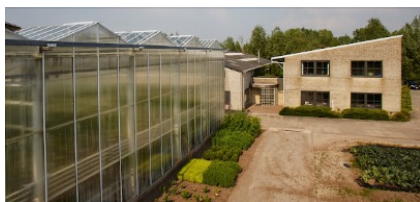

OUR JOURNEY

State-of-the art facilities

PCG greenhouse

Field (500m²) and greenhouse space (400m²) at Kruishoutem embedded in PCG

Obelisc

Expanded to Obelisc in Tech Lane Ghent with scale-up pilot production (~350m²)

Tech Lane Ghent

HQ at BioAccelerator in Tech Lane **Ghent**, embedded in one of the largest biotech hubs in Europe

State of the art roof top greenhouse (600m²)

8 walk-in growth chambers

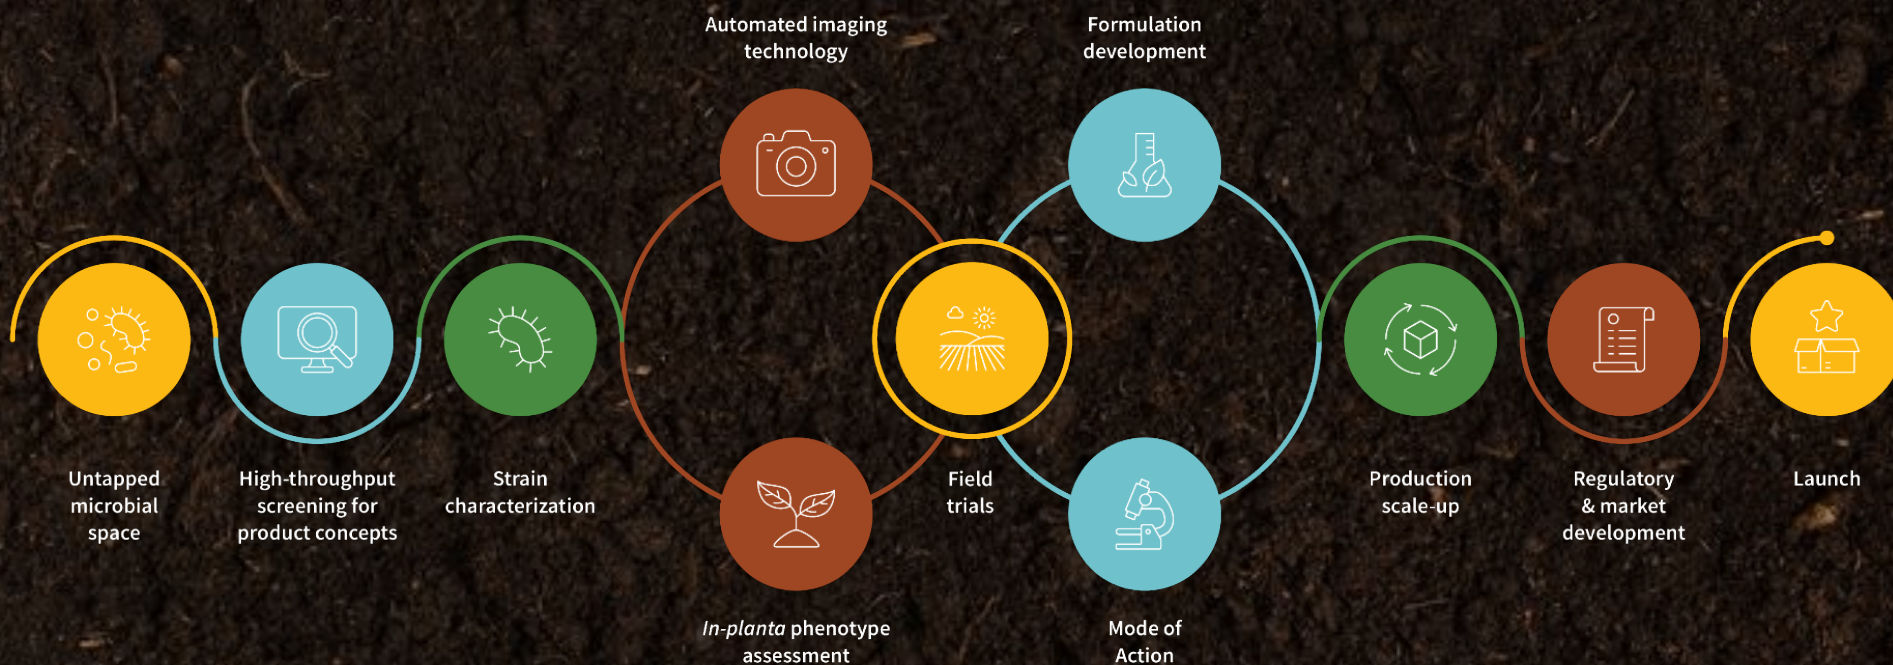

State of the art lab space (~400m²)

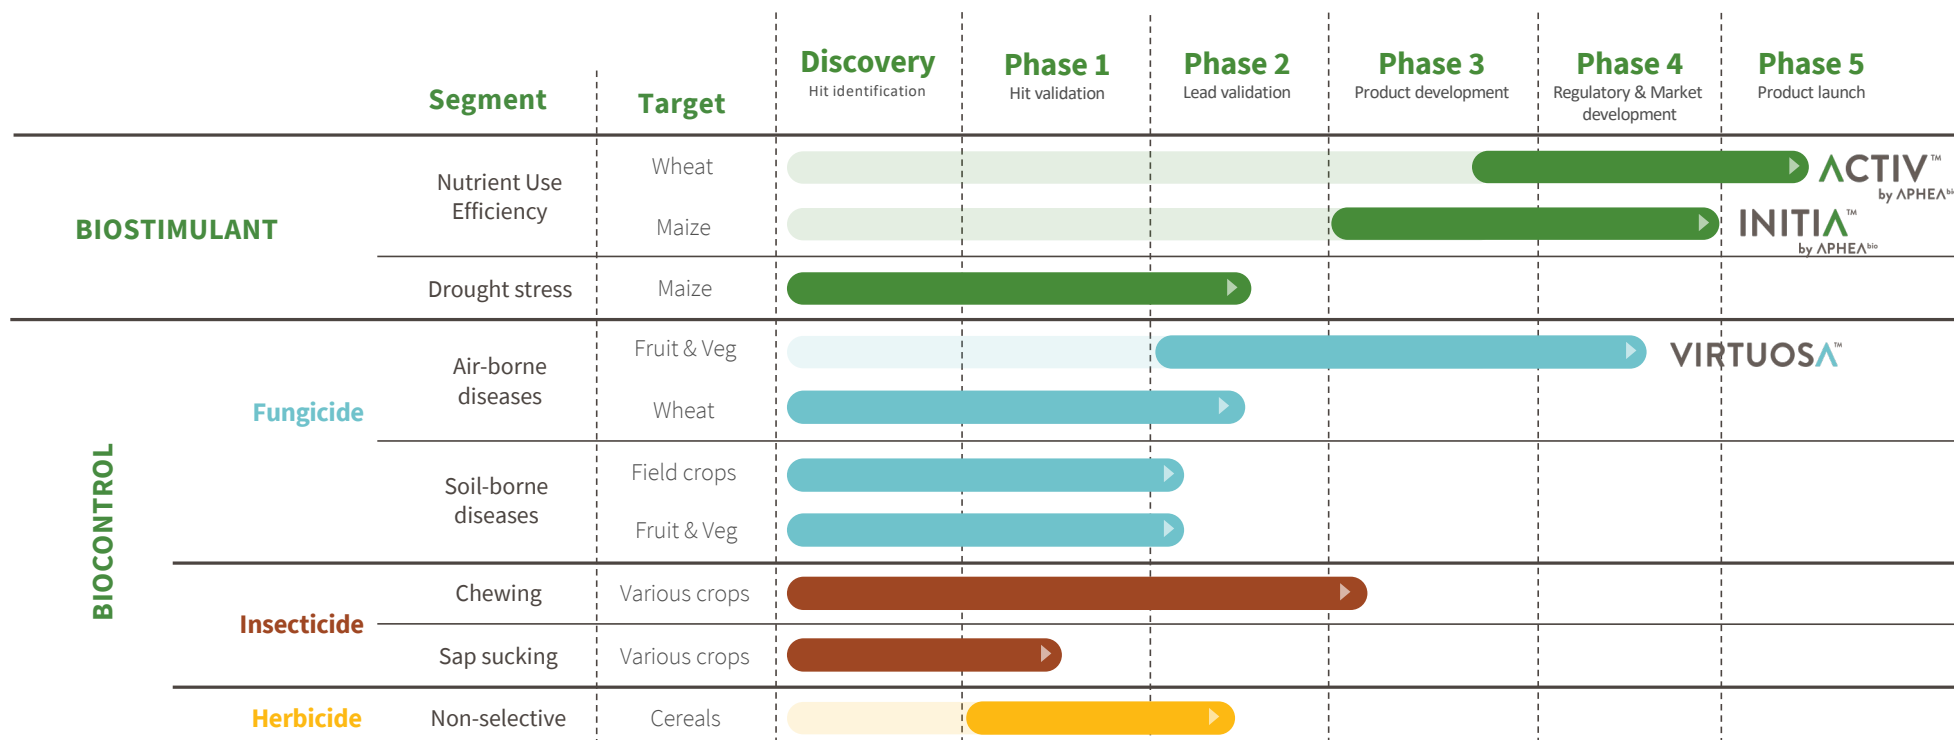

a ground-breaking, cost-efficient
path from discovery to market

Aphea.Bio is in a unique position to deliver novel and powerful solutions to the market thanks to its innovative R&D platform which bundles several unique technologies together to create a high-throughput pipeline for discovering new biocontrol and biostimulant products.

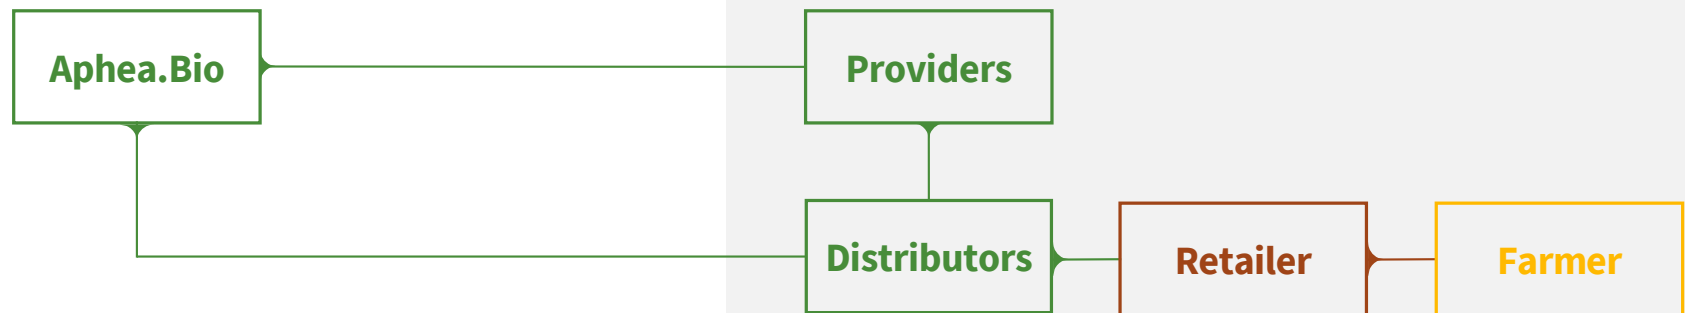

PRODUCT PIPELINE

Aphea.Bio go-to-market strategy

Strategic partners in the value chain show serious interest in Aphea.Bio's technology platform and product pipeline
Various partnering models: from co-development to supply & distribution

COMMERCIAL PARTNER

Full product package for commercial roll-out

✓ In-house product development until market readiness

- Intellectual property
- Proven efficacy
- Production and formulation
- Label determination & Registration
- Branding

Marketing and sales – logistics & grower support

✓ Partner's further developments for broad distribution until farm gate

- Marketing efforts: demo trials, printing of technical brochures, training
- Creating demand & offer of the product: trials, advisors
- Logistics and financing: manage and finance supply chain
