

# **STRATICIDE CONSULTING, LLC**

Proudly assisting pesticide  
companies navigate the winding road  
of pesticide regulation.

## PESTICIDE REGULATORY CONSULTING SERVICES

- Partner from initial step of product development through the life of the EPA registered product.
- Assistance with:
  - Formulation/label review for EPA submissions.
  - Determining data requirements.
  - Liaison between EPA and registrant prior, during, and after application submission.
  - Preparation, review, and submission of various types of pesticide submissions.
  - Product reporting and fee requirements.
  - Strategic planning for current and future projects.
  - Training for clients to ensure understanding of the process and future in-house capability.

Over 18 years in the pesticide industry

Focus mainly on biopesticide and antimicrobial products with minor experience in conventional pesticides.

Have built long-standing relationships with EPA staff across EPA Divisions

Very active within BPIA in multiple roles
